Profile

Detail-oriented B.Tech Computer Science student with strong skills in data management, communication, and coordination. Experienced in handling structured data, validating information, and working with cross-functional teams. Proficient in Google Sheets, Excel, and data tracking tools. Highly motivated to contribute in fast-paced environments requiring accuracy and organization.

Experience

Full Stack Developer Intern

Jan 2024 – Apr 2024

Apoliums Infotech India Pvt. Ltd. (Remote)

- Managed and structured backend data for multiple client projects ensuring accuracy and consistency.
- Collaborated with teams to collect, validate, and update project-related data across dashboards.
- Improved data tracking workflows using structured formats and automation techniques.
- Coordinated with UI/UX and backend teams to ensure timely updates and data correctness.

Projects

Find My Driver

- Developed a platform connecting users with nearby drivers using real-time data tracking.
- Managed user data, ride logs, and location information ensuring accuracy and consistency.
- Implemented dashboards to track ride history and user activity efficiently.

Smart Budget – Expense Tracker

- Built a budgeting system handling structured financial data and category-wise tracking.
- Visualized data using charts to improve decision-making and clarity.

EduVerse – Learning Platform

- Managed user data, course records, and progress tracking using Firebase.
- Ensured secure and consistent data storage and retrieval.

Skills

Data & Tools: Google Sheets, Microsoft Excel, Google Docs, Data Validation, Data Cleaning, Data Scraping

Communication: Email Communication, Client Interaction, Follow-ups, Coordination

Technical: C++, JavaScript, SQL, Firebase, REST APIs

Other: Problem Solving, Attention to Detail, Documentation, CRM Tools (Basics), Dashboard Handling

Education

B.Tech in Computer Science and Engineering

Aug 2023 – Present

Bennett University

CGPA: 8.54

Certifications

- Data Structures – UC San Diego
- Database Management – University of Colorado
- SQL for Data Science – IBM
- Statistics for Data Science – IBM

Additional Information

- Strong ability to manage large datasets and ensure data accuracy.
- Experience working in fast-paced environments with tight deadlines.
- Comfortable with outreach via email, chat, and calls.
